

How Much Speed Do I Need?

TriCoLink's fiber-to-the home network offers robust, blazing-fast, high-speed internet

Our FTTH network is symmetrical—you get the same speeds upstream and downstream! Quicker movie downloads, more devices, smoother remote learning, easier working from home, and better reliability, all from someone you know and trust—your electric cooperative.

We offer two simple options—100 megabits per second (Mbps) and 1,000 Mbps (Gigabit) service. Not sure which is better for you?

Fiber 100 Mbps [Residential Lite]	Fiber(1)Gigabit [Residential Premium]
Great for general streaming and downloading	Great for gaming and/or multiple users with multiple devices uploading and downloading at the same time
Up to 100 Mbps upload speed	Up to 1000 Mbps (1 Gbps) upload speed
Up to 100 Mbps download speed	Up to 1000 Mbps (1 Gbps) download speed
No data caps or throttling	No data caps or throttling
Download a two-hour HD movie in around 8 minutes	Download a two-hour HD movie in around 40 seconds
